

Bradshaw Bariatric Bed

- Electric height adjustment
- Variable tilt and reverse tilt
- Folds up for storage and moving
- All four swivel castors are braked for manoeuvrability and user/patient safety
- Electric operated rising backrest and knee-break functions.
- 3 year warranty on parts and labour

Stronger and wider to aid patient comfort

The Bradshaw Bariatric bed has been specifically designed for the heavier patient with its wider dimensions and robust construction to ensure the bed can have a maximum user weight of 318kgs (50 stone).

The bed compliments the well established Bradshaw Classic and Bradshaw Low range of beds with its high quality wooden ends and ease of transportation and storage.
